

## **Jason Mufudzi Tsikira**

UK-based | [jasontsikira03@gmail.com](mailto:jasontsikira03@gmail.com) | +44 7549 947268

**Portfolio:** <https://jasontsikira.com> | **GitHub:** <https://github.com/MrCodere>

### **Profile**

Motivated and self-taught software developer with strong foundations in JavaScript, React.js, and web development. Passionate about creating efficient, user-focused digital experiences and continuously learning new technologies such as Node.js and API integration. Seeking a Software Development Apprenticeship to build on existing coding, problem-solving, and teamwork skills within a collaborative, growth-oriented environment.

### **Education**

#### **St. Patrick's Grammar School, Armagh**

A Levels: **Mathematics (A)**, Physics (C), Digital Technology (C)

#### **Brownlow Integrated College**

9 GCSEs including: **Mathematics (A)**, Further Mathematics (B), Double Award Science (A, B), Digital Technology (B)

### **Technical Skills**

Programming Languages: JavaScript, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Django (exposure)

Tools & Platforms: Git, GitHub, Zapier, Botpress, Netlify

Concepts & Practices: API integration, Agile development, Web automation

Currently Learning: Advanced Node.js, backend development, full-stack principles

### **Projects**

#### **WhaleLook (In Progress) — JavaScript, Node.js, API Integration**

Building a crypto wallet tracking platform deployed on Netlify. Focused on strengthening frontend skills, learning Node.js, and connecting real-time API data. Can view at [whalelook.com](https://whalelook.com)

#### **AI Shopping Assistant — JavaScript, Gemini API**

Developed a web app that delivers personalised shopping recommendations. Integrated user interaction tracking to enhance AI-driven suggestions.

#### **Weather App — JavaScript, APIs**

Created a responsive weather application using external APIs for real-time forecasts.

Improved understanding of asynchronous JavaScript and data handling.

More projects and demos: <https://jasontsikira.com>

## **Experience**

- Software Developer Intern – Banjo Tech, Belfast (Year 13 Work Experience)
  - Assisted in JavaScript development tasks within an Agile environment.
  - Participated in daily Scrum meetings, learning project collaboration practices.
- Founder – JCAI Visions
  - Launched a small service helping local businesses integrate AI automation tools.
  - Built custom solutions using Zapier, Botpress, and ChatGPT for workflow efficiency.

## **Leadership & Activities**

- Head Prefect and Anti-Bullying Ambassador – demonstrated communication and team leadership skills.
- HackTheHub Hackathon Participant – gained experience collaborating under time pressure.
- Saphara Member – contributed to international charity initiatives.
- Kickboxing (Fight Club NI) – developed discipline and perseverance.
